

### Remarks

The amendments set forth above are in accord with those discussed with the Examiner by telephone on August 25, 2005, and September 6, 2005, as summarized below.

### Interview Summary

The Examiner indicated that compound claims 1-12, as well as composition claim 19, are allowable. It was agreed that claims 13-14 and 16-18 would be cancelled; that claim 15 would be amended to delete the "preventing" embodiment as well as the "including . . . urine" phrase; and that a new claim could be added which would be dependent on claim 15 and would recite that the dysuria is increased urinary frequency or incontinence of urine.

### Amendments

Accordingly, claims 13-14 and 16-18 have been cancelled. Claim 15 has been amended as discussed with the Examiner, and new claim 20 has been added to the application.

Claim 7 has been amended to add a period at the end of this claim.

Therefore, in view of the foregoing amendments, it is submitted that the present application is now in condition for allowance. Such allowance is solicited.

Respectfully submitted,

Shigeki SETO et al.
